

Edward Kavazanjian, Jr., Associate Professor, Arizona State University

Dr. Edward Kavazanjian, Jr. is an Associate Professor of Civil and Environmental Engineering at Arizona State University. He is widely recognized for his work on waste mechanics and waste containment systems. His experience includes landfill design, research on the mechanical properties of municipal solid waste, and field reconnaissance of landfill performance in the 1994 Northridge earthquake and the waste slides at the Rumpke Landfill in Cincinnati in 1996 and the Payatas Landfill in the Philippines in 2001. Dr. Kavazanjian is co-author of the USEPA guidance document *RCRA Subtitle D (258) Seismic Design Guidance for Municipal Solid Waste Landfill Facilities*.
