ABSTRACT

(Three blank lines)

Items in red type are comments and should not appear in your manuscript. Extended abstracts for each paper accepted for the 6th International Conference on Case Histories in Geotechnical Engineering will be placed in a printed volume and provided to each participant.

This extended abstract should be no longer than one page in length, including paper title and author names as indicated above. The abstract should be typed using Times new Roman typeface, 10 point, and printed with margin requirements as follows.

0.5" from top of page - header with conference
information begins

1.5" from top of page - Paper Title begins

0.5" left and right margins

1.0" bottom margin of paper

Photos, drawings or references **should not be included** in the extended abstract.

Title of paper and paper number should be typed in bold, 14 point and centered on page with one blank line between.

Author names should be printed in bold, 10 point. Appropriate organization affiliation and location is printed below each name using Times New Roman typeface, 10 point.

Body of abstract will be printed across the entire page. Paragraphs should begin flush with left margin with double space (one blank line) between each.

The title Key Words should be shown at bottom of this page with 1.0" bottom margin. This section should be in bold print and contain no more than eight (8) key words that describe your paper.

Key Words: list no more than eight (8) key words
