The One Equation

Three equations for the Professors with genius implied,
Seven for the TAs with board-work honed,
Nine for Poor Students doomed to die,
One for Dr. Bieniek on his dark throne
In the World of Physics where the problems lie.
One equation to rule them all, One equation to derive them.
One equation to bring them all and into darkness drive them,
In the World of Physics where the problems lie.

– a Physics 23 student, W2003

1. I STRONGLY URGE YOU to use the LEAD Learning Assistance for the remaining homework assignments to make sure you validated mastery the material on thermal physics:

   **LEAD Physics 23 Learning Center**
   2:00-4:30 & 6:00-8:30 pm TR in rooms 129-130 Physics

   **LEAD Walk-In Tutoring**
   7:00 - 9:00 pm MTWR in rooms 208 Norwood

2. Make sure you read and understand the important announcements given in the last two lectures.

3. If you have changed recitation sections AFTER you registered for Expert TA, you need to inform Expert TA of the change by 8:30 am this Thursday, May 2.
   Simply send them an email at main@theexpertta.com that informs them of this. Give them your name and S&T student ID number, and your current recitation section designation (2A, 2B, 2C, 2D, ....)

4. The campus Committee on Effective Teaching requests that you to fill out the course evaluations at
   **input by PC**: [http://teacheval.mst.edu](http://teacheval.mst.edu)
   **input by mobile device**: [http://teachevalm.mst.edu](http://teachevalm.mst.edu)
   Please evaluate your Lecturer (Bieniek), Recitation Instructor and Lab Instructor SEPARATELY. The links will be available through Sunday, May 12.

5. Here are jobs you can avoid with your education:
and also that of deodorant evaluator ...
